

IN THE SPECIFICATION

Please insert the following replacement paragraph marked up to show changes made relative to the immediate prior version for the paragraph beginning at page 16, line 10, as follows:

-- Thereafter, the source tree 112 and target tree 114 are matched together in the match propagate module 120. In module 120, a relationship between the source tree 112 and target tree 114 ~~are~~ is determined, and a transformation sequence is created for matching and transforming a plurality of source nodes in the source tree to a plurality of target nodes in the target tree. A set 125 of pairs of matching nodes are generated as an output of module 120.--
